To whom it may concern:

As Principal Investigator for the University of Turin of the FP7 project “EUCases – Linking Legal Open Data in Europe”, I hereby certify that Livio Robaldo has been the main responsible for the NLP tasks for the Italian language within the project.

In particular, Livio Robaldo designed and implemented the module “LT2XML” (Task 2.3), the “NLP toolkit” (Task 3.1) and the “Linking tool” (Task 3.3) of the EUCases platform, for the Italian language.

Further information may be found within the EUCases deliverables available online at:
